

87% of employees say the office is important for collaborating with team members and building relationships – their top-rated needs for the office.*

Your employees have enough to worry about without having to worry about COVID-19. Just because COVID-19 is likely to remain a staple of our everyday lives doesn't mean productivity and peace of mind have to suffer.

Implementing regular screening among your staff will help reduce the risk of transmitting COVID-19 within your business, and testing for the Coronavirus will play a crucial role in controlling the spread of COVID-19 even as more and more people become vaccinated. Partnering with Avad Solutions, MST Distributors gives you a simple, effective avenue for providing a safe environment for your employees via an accurate, rapid **saliva** PCR test. **That's right: no uncomfortable and painful nasal swabs.**

Our saliva tests can be done right at the office, reducing time employees spend out of the office at testing sites and increasing productivity and team building.

How Does it Work?

1. The easy-to-use testing kits are shipped directly to your business.
2. Ship completed test kits to the lab daily, weekly or monthly.
3. Test results are available in as little as 24-48 hours via email or online.

Ready to get started? Have questions or need more information? Need more PPE supplies? Give MST Distributors a call at **(833) 998-2266**.

We look forward to working with you!
